Case #: 73-00023

Circumstances: His photo at right is shown aged, circa 1994. Dennis was last seen on a canoe trip with his roommate. At around 7:00 p.m. on May 19, 1973, their canoe overturned when it went over an irrigation diversion dam, about one mile west of Henry, Nebraska. Bowen was able to make it to shore but when he couldn't find Dennis he went to a nearby farmhouse and notified authorities. Dennis' life jacket was later discovered down the river, but Dennis' body has never been found.

In 1994, the sheriff's office received new information after Dennis' case was featured on a law enforcement TV show. After confirming the information, the Scotts Bluff County Sheriff's Office reopened the case. The new evidence has not been publicly released.
